01 / PROFILE

ABOUT ZENO

Zeno is a veteran of New York's dance music scene, bringing more than two decades of experience behind the decks. Originally from Manhattan, his roots run deep in New York's underground dance culture, shaped by years of DJing, music production, studio work and a lifelong connection to the dance floor.

With a background in audio engineering, Zeno has worked alongside influential producers including Todd Terry, Norty Cotto and the late Patrick Adams at Power Play Studios. His studio experience and understanding of sound translate into fluid, captivating live sets that move effortlessly between deep, soulful, Latin, Afro and tech house, disco and nu-disco.

From early days in New York nightlife, including performances at the legendary Tunnel, to his current presence throughout Brooklyn and the Hudson Valley, Zeno continues to bring his own perspective and energy to the dance floor.

As a DJ, producer and former label owner, Zeno combines technical precision, musical instinct and an appreciation for the culture of dance music. Whether playing an intimate bar, underground party, club or private event, his approach is rooted in the music, the moment and the crowd.
